The important thing that unlocks the gross sales potential of your ebook is to discover a single sentence that becomes your selling handle. Then remember to use that sentence in each piece of gross sales and promotional material, and every time anybody asks you about your ebook.

In addition to selling your books assiduously on-line, there are a number of other methods that can make it easier to promote extra books.

One is to present something away free of charge along with your e book, akin to a invaluable bonus item. Or bundle a number of ebooks below one price, which lowers the price for each e-book in the event that they were bought separately.

An efficient technique for determining a price is to ship out a survey to your present customers. If these customers have already bought an book from you, ask for their opinion in terms of price. Do this by making a sales web page for the new e book, but do not include a price on that page. Another technique is to check out prices by making a number of duplicate gross sales pages with different costs on each page. Ensure that your sales copy is exactly the similar on every web page,

and contains your selling-handle sentence. Then figure out for every web page the conversion ratio between guests to your website and gross sales of your book. This will inform you what your optimum worth is.

Ultimately, if you've written a book that solves a problem or presents a new technique, your ebook will usher in each site visitors and profits.
